Allmernomics Plan

At Allmer, we understand that the development and release of creative projects such as comic books, films, and games can be unpredictable. To support the growth and success of our diverse entertainment ventures, we have developed the Allmernomics Plan—a flexible and rewarding investment opportunity for our valued lenders.

How It Works

1. Quarterly Step-Up Bond Structure

- Interest Rates: Our Step-Up Bonds offer an interest rate that starts at 0.5% per quarter and increases by 0.1% each subsequent quarter until it reaches a maximum of 2.0% after 15 quarters. Beyond this point, the rate remains at 2.0%.
 - Q1: 0.5%
 - **Q2:** 0.6%
 - Q3: 0.7%
 - Q4: 0.8%
 - Q5: 0.9%

 - **Q6:** 1.0%
 - Q7: 1.1%
 - **Q8:** 1.2%
 - **Q9:** 1.3%
 - Q10: 1.4%
 - Q11: 1.5%
 - Q12: 1.6%
 - Q13: 1.7%
 - Q14: 1.8%
 - Q15: 1.9%
 - **Q16** and beyond: 2.0%
- Compounding: Interest is compounded quarterly. Each quarter's interest is added to the principal, and subsequent interest calculations are based on this updated principal amount.

2. Fixed Deadline and Flexible Payout Period

- Fixed Deadline: Each investment has a fixed deadline agreed upon at the time of lending. This deadline is determined based on the initial lending date and corresponds to the beginning of the next full quarter.
- Flexible Payout Period: If a project completes earlier than the agreed-upon deadline, investors will be notified. During this "Green Time," lenders can choose to:
 - Request Immediate Payout: Investors can receive their investment amount plus accrued interest at the beginning of the next month, calculated based on the completed quarters and divided proportionally for the remaining months if the payout is requested between quarters.
 - Wait for the Fixed Deadline: Continue to earn interest until the agreed-upon payout date.

3. Risk Mitigation

To enhance transparency and manage risk, we have a dedicated risk mitigation fund. If Allmer is unable to meet the project deadline, the lender will receive the due amount from this fund, which is supported by continuous contributions from Allmer's revenue streams.

Why Invest with Allmer?

- Creative Ventures with High Potential: Allmer's projects represent the forefront of the entertainment industry, blending innovative storytelling and high-quality production at our Studios and Magic Factories. Our portfolio includes renowned projects like Futory, Seven Wonders, and Detective Noname.
- **Transparency and Security:** Fixed deadlines, Green Time flexibility, and the risk mitigation fund provide security and assurance that your investment is well-protected.
- **Attractive Returns:** The step-up structure rewards lenders with increasing returns over time, compounded quarterly, providing substantial potential benefits for long-term investments.

Example Investment
